

THE CITY COUNCIL

Hold Lengthy Session—Consider C.N.R. Stockyards Near School Grounds—Grant Additional Land to Dominion Government for Armouries—Provincial Training School Also Want More Land.

With the exception of Alderman Gairbairn, who remained in London after the rest of the Council, the Council, sitting in the City Hall, on Monday evening, the 26th inst., at the regular meeting of the Council held on Monday night.

H. B. Bawthelm, who is the owner of Lots 15 and 16 in Block B, Woodville, wrote informing the Council that he was unable to pay outright the taxes against the lots amounting to about \$240.00. He was willing, however, to turn over to the city the lots, which at the present time were valued at \$240.00 per month. The offer was acceptable to all the Aldermen.

Canadian Coal Supply Co., of Toronto, wished to quote on the coal supply of the city. The Commissioner had replied that they were at liberty to do so and asked for an analysis of the coal.

Fayne & Graham, City Solicitors, were enclosing a copy of the report received from Messrs. Hyndman, Milner & Co., of Edmonton. The letter explained the various matters relating to the Public Utilities Commissioners. The Commissioner had replied that they were at liberty to do so and asked for an analysis of the coal.

Mr. G. G. Calgary, wrote on behalf of their client, O. E. Bodington, of Paris, France. He is the registered owner of Lots 15 and 16 in Block B, which are situated across the C.P.R. tracks near the old creamery. The city owns all the rest of the land across the track and was anxious to get the two lots mentioned so that could be added to the subdivision. They had offered to exchange Lots 8 and 9 in Block 31 (next the Orme Park Home) for the lots held by Mr. Bodington, and his agents advised that the exchange would be very acceptable.

The Commissioner had replied to a letter from Alex. Knox, of Wetaskiwin, who asked for information regarding the assessment in Red Deer of the curling rink, and also wanted to know if the full amount of taxes were demanded from the rink.

The Commissioner had given the necessary information to a firm of the city, who were interested in the property of Sir John M. Clark, deceased. The deceased held some of the Red Deer curling rink, and the lawyers wished information as to the amount of principal and interest due each year.

Commissioners' Report
The Commissioners brought in the following report:

The Exhibition grounds and buildings were left in good condition after the exhibition. The hall storm window was replaced by a new one. The Exhibition Commission, recommends using double thickness glass.

We called on the city for painting and kalsomining the City Hall and submit those received.

We regret to report that one of the first floors died suddenly about a week ago. We submit report of Dr. Cameron on this. As the mate to the dead horse and the fact that we recommend that a team be purchased as soon as one can be obtained at a reasonable price.

We submit herewith replies received re. licenses charged. G.W.V.A. clubs in other cities for selling beer. Dr. McAllister, Provincial Training School, wishes to know if the city will consider the Government some additional land east of their present holdings. The city now has a large tract adjoining the city limits, and it may be possible to cancel several more blocks of Colville View subdivision.

We recommend that a cinder walk without sides be laid on Waskaseo Crescent from the city limits to the property occupied by G. C. S. Crosby.

We have a verbal application from Canadian National Railway officials for permission to erect temporary stock yards opposite the loading platform north of the freight station. Plan is submitted herewith.

We submit herewith application from the Dominion Government for additional land on the City Square to erect an addition to the Armouries. The piece required will be 30 feet x 80 feet.

We submit departmental reports for July.

We submit statement of receipts and disbursements for July.

We submit accounts for your authorization to pay.

All of which is respectfully submitted.

DR. J. COLLISON,
DR. A. STEPHENSON,
DR. C. W. WATSON.

There was considerable discussion on several clauses in the report. The matter of the plan for the city hall was left over, and the Commissioner instructed to look into the cost of glass and netting to protect the windows.

School Building By-law Defeated

Ratifiers Poll Overwhelming Vote Against Expenditure

A very great deal of interest and some bitter feeling was caused by the vote on the by-law to build a two-room school in Red Deer. The vote on Monday was very large, more votes being cast than the leading Trustees received last fall in a spirited campaign. The final count by returning officer S. Farnely showed 245 votes against the by-law, 79 in favor of it and 3 spoiled ballots. 327 persons voted.

What apparently saved the scale so far against the by-law at the last moment was a set of figures and facts set out on posters and distributed throughout the city. The poster showed that in two years \$100.00 could be saved if the assembly hall was used instead of a new school built, and stated that in the opinion of two city builders the cost of making two splendid classrooms in the assembly hall would not exceed \$20.00.

Judging from the public meeting last Friday night, and from conversations on the street, the majority of the ratifiers wanted the assembly hall used, and are unanimous in condemning the further use of the St. Luke's Parish Hall.

More New Settlers From Scotland

Another party of immigrants in charge of Father Macdonell, of the C.P.R., arrived last night at 11.30 over the C.P.R. by special train. Most of the new arrivals are from Glasgow, although there were two or three families of Hebrideans.

President Hogg of the Board of Trade received a warning of arrival yesterday afternoon, and at once called a special meeting of the Board, which was attended by a dozen members. It was agreed to get citizens with cars to meet the train to new arrivals, and to investigate the Industrial School.

Mr. G. G. Calgary, wrote on behalf of their client, O. E. Bodington, of Paris, France. He is the registered owner of Lots 15 and 16 in Block B, which are situated across the C.P.R. tracks near the old creamery. BOARD OF TRADE LUNCHEON MONDAY

The monthly luncheon of the Board of Trade will be held next Monday in the Alexandra Hall. Negotiations are under way to get one of the prominent men in the province as speaker, but it is impossible to date to say just who will take on this burden. No luncheon was held last month, and it is hoped that there will be a very large turn out.

WEEKLY NEWS BULLETIN

Issued by Publicity Commissioner,
Government of Alberta, Edmonton.

Big Milling Firm Invests in Alberta

Negotiations have been concluded by the Spillers milling interests of Great Britain, to take over the interests of the Alberta Flour Mills in Calgary, and complete the large mill now under way by that company. The cost of completing this mill will be about \$1,500,000. The designed capacity is 16,000 barrels per day, and the payroll will be upwards of a quarter of a million dollars yearly. It is stated that the Spillers interests eventually plan investments totalling \$15,000,000 in Alberta. Large investments are also being made at Vancouver in connection with the handling of grain. Prominent Albertans will join the directorate of the new Alberta concern.

Road Building Program

More than 400 miles of new roads are now under construction in the province under the direction of the Provincial Public Works Department. Several contracts have recently been awarded for roadwork in various parts of the province.

Grain shipments for the 1923-24 season out of the Lethbridge division of the C.P.R. totalled 37,000 bushels, of which 34,000 bushels was wheat.

New Co-operative Pools

During the past week co-operative marketing has been advanced a step further in the province with the organization of the Alberta Co-operative Livestock Pool and the Alberta Dairy Producers, Limited, both of which plan to market products throughout the province on a contract pool basis.

Good Farming Counts

R. K. Bohannan, an Alberta farmer who came from Illinois originally, and is now 73 years old, tells how he has successfully raised crops in a district affected in some years by dry conditions. He lives at Sibbald, in which district in 1922 light yields were obtained. After the crop of that year Mr. Bohannan wrote to the *Hanna Herald* as follows: "I don't know whether I am farming in the driest part of Alberta or not, but we have raised at our place by our system from 20 to 30 bushels of wheat per acre for the past two seasons, and the lowest yield we ever had on the farm in eleven years was in 1914, by the old system, when we raised 37 bushels per acre, and we have raised as high as 30 bushels of wheat and 100 bushels of oats per acre. So why should I not think this is the best

country in North America?" This year Mr. Bohannan confidently predicts he will have a yield of 25 bushels of wheat to the acre. The main feature of Mr. Bohannan's system of farming is consistent cultivation.

Good Fairs

Illustration of a good agricultural fair some distance from a railway and without side-shows, was seen this year at Goose Creek, Alberta, in the Settegrew district, where excellent exhibits of farm products and livestock were seen. The fair is held 12 miles from the railway line. Splendid exhibits of livestock were seen this year at the fairs at Lloydminster, Vermilion, Camrose and other points in the rural districts.

Prominent Writer Visits Province
G. F. Walker, noted editor and agricultural writer of England, was a visitor to the province the past week, obtaining new material for articles on Alberta.

APPROVE CREAM GRADING SYSTEM

Expressing approval of the system of cream grading established under the Alberta Dairyman's Act, the following resolution was passed by representative milk and cream producers of Alberta, a copy of which has been received by the Department of Agriculture, at Edmonton:

"We, the undersigned representative milk and cream producers of Alberta, hereby express our whole-hearted endorsement of the Alberta Dairyman's Act, and the ministerial regulations made thereunder, and our approval of the system of cream grading established under the said regulation."

"Furthermore, having fully considered the recent prosecutions launched against the Meadow Creamery Co. of Alx, we unhesitatingly endorse the action which the dairy commissioner took in the matter in seeking to secure a strict enforcement of the Dairyman's Act and its regulations. "The owner of the Meadow Creamery Company was not prosecuted and fined for paying more for a particular grade of cream than his competitors. This creamery owner violated the Dairyman's Act in paying for cream on a grade higher than the grade established by the government grader. He was also convicted for discriminating in paying less to one patron of the creamery than to another for the same grade of cream. This practice is specifically prohibited by the Dairyman's Act. There is nothing in that Act, or in the regulations of the Minister of Agriculture made under the Act, to prevent a creamery owner

from paying as large a price as he desires for any grade of cream. The regulations establish a differential of two cents between the grades of cream, but apart from that no restriction of any sort is placed upon the creameries in regard to the prices which they pay for cream shipped to them.

"We appreciate that the government grader, placed as he is between the producer and the manufacturer, protects the interests of both, and that the present high standard of Alberta butter in the markets of the world is, in a large measure, due to the very efficient system of government grading now in force."

'EAGLE'S FEATHER' PROVES THRILLER

Metro Ranch Picture Is a "Western" That's "Different"

A thrilling Metro picture, full of delightful incident and fine action, will be at the Rex Theatre, Thursday, Friday and Saturday. It is called "The Eagle's Feather," and is a picture of Katharine Neilson Burt's famous story of the same name which appeared in *Cosmopolitan's* magazine some time ago. The story was read by millions of people and its pictureization will undoubtedly be enjoyed by as many more, for it devotes in no essential form the great charm and sentiment of the original story.

"The Eagle's Feather" tells the story of a hard, un sentimental woman who scorns men and love and is known as "the biggest man in Bear Valley." But there comes a time when a newcomer on the ranch, just returned from the war, strikes her fancy, and Della, the scorn of men, finds that Fate has played her a cruel trick. When she craves for love it is to her niece, a frail, beautiful girl, wholly feminine, that the man turns to with love, and Della must acknowledge her only defeat and that at the hands of the sex she has despised all her life. "The Eagle's Feather" contains many scenes of tremendous action and excitement. James Kirkwood, fresh from his great acting in "The Fool," the sensational Broadway success, and Mary Alden, who was the other in "The Old West," head a cast of capable players.

F. B. CARVELL K.C., DIES SUDDENLY AT ST. JOHN

St. John, N.B., August 11.—Frank Carvell, chairman of the board of railway commissioners of Canada, was suddenly stricken at his home in Woodstock on Saturday afternoon, and was found dead on his farm shortly after 5 o'clock. He had walked to his farm through the fields, a considerable distance, and it was very hot. This, no doubt, contributed to the fatal result.

Mr. Carvell had arrived from Ottawa at noon, appearing to be in the best of health. He had frequently complained of a shortness of breath after strenuous physical exertion, but he always put it down, laughingly, to growing corpulence.

After telling the members of his household that he would be back at 5 o'clock, Mr. Carvell started walking toward his farm. When he failed to return a search was made and he was found lying as he had fallen. Dr. M. F. Grant, who was hastily summoned, said that from the position of the body death must have been instantaneous. Death was caused from embolism, he said.

Mr. Carvell is survived by his wife, one brother, Robert, of Lakeville, and two sisters, Miss Elizabeth, who is in Europe with the teachers' party, and Miss Bertha of Boston.

Commissioner W. B. Nantel's retirement from the board within a couple of months will leave two vacancies now on that body. During his term as chief of the railway commission a number of important cases came before him and his colleagues for hearing and decision. Among these was the application of the Bell Telephone Company for increased rates, the express rates case and important freight rates cases. The hearings of complaints against the Crown's Nest pass rates were to have come before him later in the present year.

An Outstanding Figure
Ottawa, Aug. 11.—With the death of Frank Broadstreet Carvell, K. C., LL.D., another of the outstanding figures in Canadian public life passes away. A man of rugged, forceful personality, one who was decided in his views and forcible in his declaration, Mr. Carvell had nevertheless a kindness and sympathy which made for him many friends. In the House of Commons, where he held a seat for 15 years, first as a supporter of the Laurier government, then as a member of the opposition under Sir Wilfrid Laurier, and later as a minister of public works in the Union government of Sir Robert Borden, Mr. Carvell won the reputation of being a hard fighter but one open and above board. "Fighting Frank" was

the name by which many of his political friends and enemies knew him, and his qualities as a debater and administrator were recognized and respected.

EDMONTON BASEBALL FANS DECLARE TURNER IS "KING OF BUSHERS"

Edmonton, August 11.—Cliff Turner, pitching "ace" of the Mirror baseball club, showed his class while in the tournament at Edmonton the first part of last week. One of the main purposes of this tournament was to make a selection out of the four teams of one player who would be the best all-around baseball artist. It was that he could be called "King of the Bushers." Forty baseball experts were selected to attend the games and cast their votes as to their choice for king. The votes have been counted and the final selections given to "Tiny" Turner. "Tiny" outpitched his nearest rival, Sid Hamilton of the Edmonton Outlaws, by 44 points. Sid Hamilton obtained second place with 39 points against 43 for Turner.

Laurie Scott, of Tofteld, the Saskatoon hockey star, was third with 25 points. The only other player to obtain any creditable amount of votes was Norman Dodge of the Outlaws, with 37 points.

During the past three weeks Mirror has played against Swallow, Red Deer, Vikings, Edmonton Outlaws, and Lamont, all with a line-up of high class players. Turner has been in the box against all of these teams for 41 consecutive innings, and during this time has not allowed one run to be scored against him.

CROWN WITNESS CHARGED WITH ARSON

Castor, Alta., August 11.—V. M. Sherbro, star witness for the crown in the Semple case, was arrested on a charge of arson on a warrant sworn by T. J. Morris, a large property owner in town. This is on account of his evidence in Semple trial, Saturday, Sherbro was tried on August 1, on a charge of intoxication, and was remanded in two hundred dollar bail, to come up for sentence on August 15.

H. Semple, accused of setting fire to buildings in Castor, was committed for trial at the conclusion of the preliminary hearing on Saturday. The police magistrate at first committed the accused for trial without bail, but after a lively tilt with McKinley Cameron, counsel for the defence, this decision was rescinded and bail was allowed in two sureties of ten thousand dollars, to be found in twenty-four hours.

CARL LAEMMLE presents TRIFLING WITH HONOR

A Smashing Story of the Great Outdoors

Superbly Produced
Thrilling, Exciting, Absorbing

COMING MONDAY, TUESDAY, WEDNESDAY

"TRIFLING WITH HONOR"

A THRILLING DRAMA OF

A man who sunk to the depths and was won back by love! A boy whose faith brought happiness to the two he loved best! A girl whose love brought the man back! A friend who played square and lost gamely!

This is one of the most enthralling, most exciting dramas in months. It is an epic of the great National Game—in which all the underlying drama of the game is expressed, as well as its comedy moments! It is the story of a girl's great love for a man who in the eyes of the world was an outcast—until through the power of her love he was brought back to a position of honor in the eyes of millions! It's a picture for the whole family—one, of the best in a long time!

From Katherine Neilson Burt's
Great Story, that thrilled over
5,000,000 people while running in
the *Cosmopolitan Magazine*.

Fifty per cent. of the entire proceeds of this picture will go to the Red Deer Ball Club in order to make up the loss the Club sustained during the season.

Tickets can be secured from any member of the Club or at the Theatre.

TEN YEARS AGO

From The News, August 12, 1914.

Rev. C. W. G. Moore, rector of St. Luke's, resigned and left at once for England to enter the service as a Chaplain.

The Belgians were still holding out at Liege, but terrific fighting was going on.

Lord Kitchener had taken charge of all Britain's military movements.

Red Deer defeated Innisfail at tennis, taking 9 events out of 13.

J. B. Durand and four other French residents left for France to join the army there.

FIFTEEN YEARS AGO

From The News, August 11, 1909.

H. W. Wright married Nora Constance Pettman, of Toronto, in that city.

The W. E. Lord Co. sold their Lacombe business to F. McLeod, and Mr. Lord started to give his exclusive attention to the Red Deer store.

M. Dieriot, French airman, flew across English channel, this being the first time this had ever been done in a heavier than air machine.

It was expected that harvesting would be general the following week. Hay was nearly finished. Both hay and grain crops were good and there had been practically no damage from hail or frost.

Principal W. J. McLean was receiving congratulations on the high standing made in the Department examinations. In Grades V, VI, and VII, 47 students passed out of 54 writing.

DOMINION ELECTION RUMOURS

The political prophets say there is likely to be a dissolution of the Dominion Parliament this autumn and an election in the winter. Their prediction is based chiefly on the large sums of money for the spending of which the Government look authority in the closing days of the session. If this proves to be true, it will entirely bear out what was said in the articles which appeared in McLean's Magazine some time ago as to the discredit of the expenditure of public money on what is nothing more or less than political bribery. We might have thought that such an exposure as was then made in what is one of the most widely read of all Canadian magazines would have conveyed something in the nature of a deterrent warning to a government whose position is precarious now and is likely to be something worse than precarious after a general election. If the prophets are correct, it has not been so, and it is to be hoped that that fact will secure full publicity if the election does come off this winter.

Election or no election, there was yet one more feature of the late session which again bore out the accuracy of the writer in McLean's Magazine. This was the authorization, also obtained with the benefit of discussion at the end of the session for a very large Dominion of Canada loan. This was practically the most important measure of the session, yet it apparently occasioned less interest and certainly led to less discussion than paltry trifles which were wrangled over at tedious length during the earlier part of the session. The Government naturally must take the main blame for this, but it does not add to the credit of the Conservatives and the Progressives that they allowed such a thing to happen in face of their strength in the House of Commons. It shakes the whole confidence of the people in their representatives when things like this go on without apparently anything like a sincere and adequate protest.

If the loan was a comparatively simple, non-controversial transaction as to which there was no occasion for much argument and discussion, then the proper time for its authorization was not at the end of a long session when interest was largely dead. If, on the other hand, it was in any way a matter of doubt or enquiry, then the discussion of it was wholly inadequate.

It should be noted that the loan is to be floated in New York and neither in Canada nor in London. In view of the obvious inclination of the present Government to strengthen Canada's relations with the United States and weaken them with Great Britain and the Empire, this fact is not surprising. It would be interesting, though probably quite impossible to get a really candid public statement from Mr. Mackenzie King as to his views on the Empire and Canada's relation to it. Judging by his actions, one might imagine that he has been deliberately looking for a chance to take an estrangement between Canada and the Empire, and to increase yet more the financial and economic grip of the United States on Canada. If Mr. Mackenzie King aims at playing with respect to Canada and the United States the part which King James II. tried to play with respect to England and France, that is to say, to make his country the dependent pensioner of its great neighbour—he will do well to remember that James II. paid for his attempt by the loss of his throne without a blow being struck to save him and with hardly a single

expression of regret following him into exile. It seems likely that there would be a similar paucity of regrets if the Canadian King found a permanent exile in the States of his veiled preference, as the Stuart King did in the France of his open affection. Meantime Canadians who value their country's independence and honourable place in the Empire should take all possible measures to speed the parting guest on his southward way.

UNRELIABLE CROP REPORTS

In these critical months from the farmers' standpoint, almost the most interesting features of our newspapers to the farmers are the crop and weather reports which appear from time to time. They are of real importance to the farmers as a guide to them in their day to day policy. It is, therefore, disappointing to hear amongst farmers living out in the country frequent expressions of doubt as to the accuracy of these reports. It is usually the unofficial reports in the daily press which come in for most criticism, the suggestion being that they are as a rule too optimistic, too vague, and often wholly wrong. We see large headlines about "Bountiful Rain" and "Prospects of a Bumper Harvest," and we read the detailed reports showing so many hours of rain over such and such a district, and then perhaps we meet a farmer from that very district who explains that the rain missed his place entirely and that his crops are withering and dying. The exasperation produced among such men by the cheery reports in the press is much the same as that often produced amongst the men of the front in the war when they spent perhaps a day and night covering for their lives in the trenches under a concentrated hail of machine gun bullets, shrapnel and high explosives, and then read in the papers of the loss of a few men, or the day in question "all was quiet on the Western front."

This ought not to be. It does not matter where the fault lies, whether those who send in these reports are careless or there is a tendency on the part of those who receive them to give as optimistic a colour to the situation as possible—the effect is to mislead the public and to shake the credit of the press generally. It may be that this is merely one more example of that mistake and childish policy of optimistic exaggeration, vulgarly known as "boots," which thinks that by saying that all is well and refusing to say difficulties in the face, a bad situation may be cured and difficulties may somehow be dodged. We doubt whether there is anything more in the matter than the slackness of individual observers and a natural desire to look on the bright side of things. We have heard of special crop reports speeding about through districts in non-stop trains and sending back telegrams as to conditions in some of the districts passed through, to be sent off from intermediate stations as if the reporter had really stopped there and made proper enquiries. This nefarious proceeding is, we believe, rare, nor is there any ground for suspecting a dark conspiracy amongst financial speculators on the wheat exchanges to manipulate the news in the press in order to favour their operations. This sort of suggestion springs up in the minds of farmers who grow suspicious more readily than wheat.

Nevertheless, the impression of unreliability is too common with respect to these reports. It is quite impossible for the newspapers themselves to check the reports sent in to them on all occasions, and confirm their accuracy by cross enquiries. They have to take a certain amount of trust, and it is, therefore, only fair as it is highly desirable, that all who send in such reports to the press should be careful to make them both accurate in respect of observation and moderate in respect of estimate. Under present conditions the reliability of the press is a really important factor in the life of a community, and it would be a wholly harmful thing if the impression became established that statements made in the papers in respect of crops or anything else could not be trusted.

THE END OF PROHIBITION IN WESTERN CANADA

As has been already reported in the press, the liquor referendum in Saskatchewan resulted in the decisive defeat of prohibition and a majority for government control. Thus the whole of Western Canada has made trial of prohibition and after trial has rejected it. In Saskatchewan the decision is in favour of government control throughout, covering the sale of all liquors. In our opinion this is definitely better than the hybrid system introduced into Alberta as the result of the doubtful and obscure clause "D" vote.

We believe that what the people of Alberta wanted and what they thought they were voting for was what Saskatchewan has now voted for, namely, the enabling of citizens to obtain under restriction liquor for consumption in their own homes, and the elimination so far as possible of private profits in the liquor trade, which from its very nature is unsuitable for exploitation as a means of private gain. The beer bar and the club license are superfluous which crept into the referendum in obscure form and under circumstances not easily intelligible. Now that they have become established, they are likely to be difficult to get rid of.

Vested interests will take root around them, and fight strenuously to keep them in existence. Nevertheless, while the beer saloons and licensed clubs—much the same thing in some cases—are not good things, the net result of the change from total prohibition in Alberta seems likely to be a benefit. There is probably more drinking than before the change—though even that is doubtful—but it is mainly beer drinking, which is infinitely preferable to the drinking of illicitly brewed or adulterated spirits. Further, it is no longer semi-secret drinking. The thoroughly ugly atmosphere of half-well-defence of the law is gone. The liquor interests are out in the open, and insofar as they are bad, they have now lost the support of moderate men, who under prohibition were inclined to look with tolerance on the sale of liquor dealers as a sort of embodied protest against excessive interference with personal liberty. This reluctant alliance between the moderate man and the liquor shark, if he may be so described, was the real evil of prohibition. The alliance is now dissolved and the liquor dealer stands alone. It is true that they may snap up here and there a weak man who under prohibition would have gone safely on his way without going near his hidden lurking place, but this is not an important loss, probably considerably less than that which was incurred when they enjoyed something approaching to the position of public champions. There can now be neither sympathy with nor excuse for any breach of the liquor law.

There is so much that is utterly bad about the liquor traffic and so much that is wholly good about the temperance movement that it is to be hoped that the temperance party will not make the mistake of devoting their energies to an agitation for a return to prohibition in the West. We commend earnestly to their attention the united alliance now existing in the United States between the prohibitionists and the liquor interests. Both of them are fighting strenuously to uphold prohibition as it now is, and in view of the fairly obvious reasons for doing so, it is obvious that there is something sadly amiss with the result of prohibition in the States. With all deference we suggest to the temperance party that their most useful line of action is to preach and practise moderation, the soundness of voluntary total abstinence, which no one can possibly find fault with, the risk of liquor drinking, which only a few will deny, and the utter folly and bestiality of drunkenness, which none but fools will dispute. If they do this, we believe that they will find public opinion increasingly with them, and the cause of unforced temperance advanced unchecked.

THE SCHOOL BY-LAW

The News was taken severely to task at the public meeting by some of the speakers for its outspoken editorial in our last issue. We stick to what we then said, with one exception. We apologize for the statement that Mr. Berry misrepresented the fact "cost of the Parish Hall." The only information we had in the matter we got from him and that was that the cost was \$307. It was not until the meeting referred to that we knew anything of the cost being for any part of a year.

Our editorial served its purpose admirably in that, largely due to it, more public interest has been taken in the vote than in any vote in the history of the city. And, apparently, judging from some of the statements made at that meeting and since proven incorrect, "The Truthful Weekly" is not the only medium or person that makes mistakes.

EDITORIAL NOTES

Red Deer mourns the loss of another good citizen. H. J. Bayley, manager of the Red Deer Grocery Co., died quite suddenly at Edmonton while on the way to the coast. He had been in failing health for some time and the trip to B.C. was being taken in the hopes of benefitting him. To all who knew him, but especially to those who

Another body of Hebridean settlers is on the way to Alberta to settle in the Red Deer district. The method of settlement being tried out by the Scottish Immigrant Aid Society seems to be working successfully in practice. While the number of settlers brought in may not be large, as far as we have been able to ascertain, all have been given a good start and are more than satisfied with their change in domicile.

Our old friend, Harry Evans, got married the other day and the kind reporter of the Advocate headed a report of his wedding "Evans Farewell." We presume that "Farewell" was said, that song that we so often hear mumbled, was written on the occasion of the marriage of Signor Tosti.

We take it that two things may be taken for granted after the heavy defeat of the school by-law. The first is that no ratepayer wishes the Parish Hall used again for school purposes—this was evident at the Friday night meeting. The other is that until they are convinced that there is no alternative, they do not wish even the smallest sum of money spent if it entails adding to the City debt.

MORE HEBRIDEANS COMING IN A FEW DAYS

Special Train With Almost 225 Settlers for Red Deer and Edmonton

Following excellent reports sent back to the old country by the native sons and daughters who have settled in the district of Red Deer, another party of 179 adults and 50 children is due to arrive in the next few days, according to information received here last night from the Canadian Pacific railway. A special train carrying this further consignment of settlers arrived in Winnipeg last night, and immediately proceeded on its further journey west.

Included on the same train are other immigrants destined for various parts of the prairie provinces. The party of Hebrideans is in charge of Rev. Father Macdonald and Father Quilly.

HOW DO THEY GET THAT WAY?

Some amazement was expressed at the Council meeting at a letter from a coal company in Toronto that wants to be allowed to quote on the city's coal supply. They state that they will supply anthracite or bituminous at prices that will open our eyes. And yet in Ontario there is a loud outcry for Alberta coal. The coal mentioned would come from Pennsylvania. What is that we heard about freight rates? They must only work one way.

RESULTS OF SHIPMENTS OF CATTLE TO ENGLAND

During the past three years the Dominion Experimental Farms have been making experimental shipments of store and fat cattle and chilled beef to Great Britain.

In a shipment made in May, 1924, consisting of 140 head of store cattle of different ages and weights, from the Experimental Stations at Lethbridge, Alta., Scott and Rosthern, Sask., and Lethbridge, Que., some interesting facts are shown.

Total Cost of Shipment to Manchester, per Steer.

From Lethbridge	\$42.60
Scott	\$39.14
Rosthern	\$42.13
Lethbridge	\$42.10
Lethbridge	\$38.95

Shrinkage in Rail and Ocean Shipment

Fat or steer kept (average 1209 lbs.) from Lethbridge, Alta., shrink 7.5%.

Steers not so well finished (average 1255 lbs.) from the same farm lost at the rate of 5.8%.

Cattle from Scott, Sask., shrink 8.1%; in the case of yearlings (average 990 lbs.) and with two year olds (average 2269 lb.) 8.2%.

While 1443 lb. Angus feeders from Rosthern lost 7.6%, and 1922 lb. butchers shrank 9.0%.

Deductions

1. It was apparent that care in rail shipping from the West has much to do with minimizing shrink. At Ottawa, crowding is responsible for heavy loss and cattle arrive at port of loading in a more or less exhausted, shrunk condition. Several hours' rest is advisable at feeding points where the exercise and opportunity to relax is possibly more important than the feeding.

2. Fat cattle lose more than those in a less forward condition.

3. Ocean shrinkage is comparatively light (under fair conditions as to weather and attendance).

Which Pays Better—Sale in Canada or Export?

It is frequently stated that it pays just as well to sell in Canada as to export. In a general way this is true. It should be remembered distinctly, however, that for the classes of cattle required by Great Britain, the export trade has established or stabilized Canadian prices. In other words the

British market has pulled up Canadian prices to the same level. Costs of shipping considered. This has been proven in two shipments made by the Dominion Experimental Farms. In the first, in a lot sent from Lethbridge, Alberta, local prices were increased through the fact that the cattle were not exported from the locality. In shipments from Saskatchewan and Alberta to maximum appraisal values at point of shipment were, with the exception of one lot of yearlings, increased by from 2 to 62 cents per cwt. Question 7. Finally, it may once more be pointed out that Great Britain need not be considered as a profitable outlet for the common butcher steer, or for the fat cattle. The price of cattle in Canada is equal to net export prices; this benefit is directly due to the removal of the embargo.

Brief Deductions from This Experiment

1. Uniformity of groups is a most important factor in successful sale. The man who can breed or buy for export steers of uniform color gets the proverbial benefit of the buyers' first impressions. The low set, blocky type of steer gets the feeder's eye.

2. The British feeder likes best a bullock that is young enough and spare enough to grow and fatten at the same time. The yearling or two year old steer that has been wintered economically on home grown feeds and with cheap housing, and that is shipped off grass in the fall, is a good proposition for both buyer and seller.

3. For the former he grows and fattens for the latter he represents a sale of a strictly home produced article.

4. The lighter spring shipped feeder steer may go forward from February to April, to finish off grass as fat in August and September. During April and May the "short keeps" or cattle forward in condition will find a market provided they will develop not more than an 800 pound carcass when subject to a "short keep" fat, or choice butcher steer, when exported, represents a heavier investment (greater feed cost) to the shipper and is frequently a riskier proposition.

5. Shipping the feeder steer that has been developed largely on grass and home grown roughage with little concentrate, involves minimum risk on the part of the shipper and allows the British feeder to do the gambling.

6. The time of shipment, therefore, has much to do with the weight and age of steer to ship. The young light-weight steer, if well selected, is very popular with the British buyer.

Unless prices be markedly advanced for the 800 pound steer, however, the economy of shipping

him is doubtful. Speaking generally the British retail type of steer commands the highest price when fat. The British dealers like the handy weight butcher steer, just as in Canada. Shippers would do well, therefore, in selecting steers that would land in England weighing not greatly in excess of 1250 pounds.

6. Horned cattle are at a distinct disadvantage.

7. Branding on the ribs is decidedly objectionable.

8. Finally, it may once more be pointed out that Great Britain need not be considered as a profitable outlet for the common butcher steer, or for the fat cattle. The price of cattle in Canada is equal to net export prices; this benefit is directly due to the removal of the embargo.

Further particulars regarding these shipments may be obtained from the Central Experimental Farm, Ottawa.

SIXTH ANNIVERSARY OF GREAT VICTORY DRIVE

August 8, 1924, marked the sixth anniversary of the start of the One Hundred Days in 1918, which brought victory to the Allied arms and the end of the war.

On August 8, 1918, the Canadian Corps moved forward from their cover, south of Amiens, and attacked the famous stretch of line that defended Hindenburg wood.

The First, Second, Third and Fourth Divisions, and the artillery of the Fifth Division shared Canada's glory in the battle that started on that date.

The attack south of Amiens was followed by a series of swift strokes by the British armies, with the Canadian Corps in the thick of the fighting.

Service men who survived in France until 1918, will always remember August 8 as a red letter day. It marked the beginning of the end for the German forces. Four days previous was the anniversary of the declaration of war.

INNISFAIL GOLF TOURNAMENT

(The Innisfail Province)

With thirty-two entries, eight from Red Deer, three from Didsbury, one from Calgary and twenty locals, and a considerable number of female entrants, both local and visiting, the tournament was a great success.

There were competitors of all kinds to test the ability of all players, from the beginner to the skilled amateur.

Twenty-nine prizes, offered adequate inducement to all to do their best. The opening day was taken up with the championship and the qualifying rounds for the flights, of which there were three with a consolation round for those who were defeated in the first round of the flights. Threatening rain fell all around but was kind to the course and no one at all was inconvenienced by the weather. The second was the show day.

All the while our smiling friend Earl McMahon welcomed the nimble competitors as they tried to reduce for the "par" of the course on the approaching and putting green. The intricate curves which seemed to baffle the best of the owners of all types of putters varying from the humblest at \$1 to the magnificent stainless steel article at some unheard-of price. One man was heard to say that he was going to get his putter gold-plated and set with emeralds to see if that would not make it work better.

The rounds were gradually played off, and in the meantime the ladies played their championship match. In the afternoon there were mixed foursomes, followed by the men's driving competition. The challenge team from Red Deer played for the Orion cup.

The match was not lifted by a narrow margin.

Then came the ladies' driving match which was produced of some considerable interest. The drives lengthened and lengthened until with a splendid effort Miss Sofia Thomson carried off the honors with a 142-yard drive, followed closely by Mrs. McKenzie-Grieve.

The last event for the day was the play-off for the approaching and putting competition with our friend Miss Kirkham, who, as usual, trimmed them all, officiating as umpire. By this time it was getting dark, and the ladies were to the store of E. R. Edwards to receive his prize or to congratulate those more successful. This ended a most successful and enjoyable tournament.

A list of the prize winners follows:

McCune-Lowes

Pretty Church Wedding at St. Luke's on Wednesday

An unusually pretty church wedding took place at St. Luke's on Wednesday afternoon at 1:30 when Miss Edna McCune, daughter of Mr. and Mrs. Jonathan Lowes, was united in the holy bonds of matrimony to Mr. Herbert McCune. The ceremony was performed by Rev. Gerald McComas, and Mr. W. F. Patchett officiated at the altar.

The bride, the daughter of the young couple was evidenced by the large gathering present, the church being crowded to capacity. The bride, who was unattended, entered the church on the arm of her father, and looked very charming in a beautiful dress of silk georgette over white satin, with hat to match, trimmed with orange blossoms, and carried a shower of roses.

Mr. Charles McCune assisted the groom. Mrs. Lowes, mother of the bride, wore a pretty gown of black canton crepe headed, and Mrs. McCune, the groom's mother, was becomingly attired in black, both carrying bouquets of carnations.

After the ceremony, the relatives and immediate friends of the contracting parties were entertained to a lovely buffet luncheon at the home of the bride, where Rev. McComas proposed a toast to the young couple, where they received the congratulations of those present. The tables were prettily decorated with roses and a beautiful wedding cake.

Mr. and Mrs. McCune left on the afternoon train, amid a deluge of rice, to spend their honeymoon at the Coast, the bride travelling in a dress of sand colored polka dot with hat to match, and a coat of blue bolivia, trimmed with lace. After returning they will make their home on Second St. South.

The many lovely and costly gifts received testified to the high esteem in which Mr. and Mrs. McCune are held here. Both have been residents of Red Deer for a number of years, and are deservedly popular among a large circle of friends, and best wishes will be extended to them for a long and happy wedded life.

CONDOR ORANGE LODGE

The Condor Orange Lodge, Nos. 608 and 2945, held a very successful supper and dance in the Community Hall on Tuesday, August 5, in honor of Mr. and Mrs. James MacPaul, who are shortly leaving for B. C. The two lodges turned out in full strength, and about sixty people sat down to a table which was beautifully decorated in the Orange colors, and which was presided over by Sister H. Eastman, on behalf of the Ladies' Orange Lodge. In a few well chosen words, presented Sister J. MacPaul with a very pretty cream and sugar set. Not wishing to be ostentatious by the ladies, Bro. R. Frendoragat, W.M. of the men's lodge, called upon Bro. Scott Hestle to voice the sentiments of Lodge No. 2945, and to give Bro. J. MacPaul a gold locket with the emblem of the Orange Order. Bro. Hestle, wishing Bro. MacPaul God-speed in his new undertaking, spoke of the loss the district would suffer in his leaving the community, as Bro. MacPaul's character was a great example, not only to the Orangemen, but to the community as a whole.

Bro. MacPaul, in returning thanks, spoke of the regret he felt in leaving his friends and said that he would always have a warm spot in his heart for Condor. His remarks were responded to by singing "For He's a Jolly Good Fellow," followed by three cheers and a tiger.

Bro. N. Eastman, whose rich baritone voice is always enjoyed, sang two beautiful songs. Sister M. Porter sang "Old Paul of Mine," which was received with enthusiasm by those present. Last, but not least, in the programme was Bro. R. Hewitt, who provoked fits of mirth with a couple of comic songs.

It was left to Bro. W. Avery, one of our leading speakers, to propose a vote of thanks to the ladies for the "supper." A most enjoyable dance followed, and many thanks are due to the musicians who kindly donated their services.

Here and There

Radio stations are to be established near Montreal and Vancouver as links in the Empire wireless station program as the result of arrangements just completed between the British Government, the Department of Marine and Fisheries of Canada, and the affiliated Marconi companies.

The Manitoba Pulp and Paper Company, which is understood, shortly establish a plant at St. Boniface, near Winnipeg, Man. The company plans to expend \$5,000,000 of its \$5,000,000 capital on immediate operations, and to build a 200-ton newspaper mill, employing about 700 men.

Canada's trade is growing at a faster rate than ever before, despite the war. She now sells to 100 and buys from 77 countries. Her total foreign trade in the calendar year 1923, reached \$1,018,264,789, an increase of 16 per cent in one year, and her interchange of commerce increased 70 per cent between 1913-14 and the present year.

John B. Thompson, noted sportsman and writer on the out-of-doors, widely and popularly known by his pen name of "Ozark Ripley," is visiting the Canadian Pacific bungalow camps in Ontario, giving demonstrations of his skill as a fly and bait caster, as well as free casting lessons to guests and informal talks on fishing and other out-door subjects.

Creating a new record for the 15 years it has been in business, the Saskatchewan Co-operative Elevator Company will have handled 50,000,000 bushels of grain through its commission department in the 1923-4 season, it is announced. The estimate of grain handled through various elevators for the 1923-4 season is 55,000,000 bushels.

The steel superstructure of the new St. Anne de Beaupre Basilica, which is to replace the destroyed basilica at the famous shrine, has now been completed and it is expected that by next July the exterior of the church will be nearly finished. It is not anticipated, however, that the building will be entirely ready until July 1929. In the meantime, thousands of pilgrims continue to visit the shrine and several miracles have been recently reported.

Figures issued by the Department of Agriculture for the Province of Quebec show that there has been a marked improvement in the condition of farmers of the province over last year, due to good crops, to such an extent that, instead of distributing grain seeds to the value of over \$125,000 as was the case last year, only \$30,000 worth was necessary to meet this year's requirements. Hon. J. E. Caron, Minister of Agriculture for the province, basing his anticipations on present crop prospects, expects a still further improvement in the near future.

"Never has the opportunity for Canadian business in the Orient been so good as it is today," said Allan Cameron, Ontario agent of the Canadian Pacific Railway, in Montreal recently. "It is true that the general volume of business in China and Japan is somewhat below normal owing to both local and world conditions, but if Canadian manufacturers and producers now fall to make an effort to secure the large share of Oriental trade that would naturally come to them, the opportunity will pass and someone else will get the business."

Following its success at the British Empire Exhibition, the Canadian Pacific Railway is arranging unusually fine displays for fall exhibitions in Canada. At Toronto, the exhibits will include a Northern Ontario hunting scene, having a painted background sixty by sixteen feet, a feature of which will be to show deer moving through the forest and an attendant guide to give information to enquirers. A full-sized model of the front of a Canadian Pacific engine and other displays illustrative of the Corporation's many activities will also be shown in Toronto. Wonderful electrical models depicting Canadian winter sports, round-the-world cruises, etc., are slated for Quebec, Sherbrooke, London and North

R. A. VAN SLYKE SECRETARY OF ALBERTA DAIRY PRODUCERS, LTD.

New Executive Takes Place of Provisional Board

Edmonton, August 11.—The destinies of the Alberta Dairy Producers, Ltd., will be controlled by an executive committee elected at Friday night's meeting, which will take place at the provincial board which was temporarily elected at the organization meeting. This new committee consists of N. C. Clarke, Disbury, chairman; J. R. Love, M.L.A. from N. S. Smith, M.L.A. Oids, and R. Van Slyke, Red Deer. Mr. Van Slyke will act as secretary of the committee.

The new executive went into session on Saturday morning to discuss plans and to formulate a definite policy for the organization of the dairy products pool. It is expected that a number of meetings will be held during the next week or so before any program is actually launched. A further conference of this committee with members of the department of agriculture is planned for Saturday afternoon.

Members of the provisional board of the Alberta Dairy Producers, Ltd., gathered in the city at the same time with the idea of consulting officials of the department with a view to the definite policy of the new livestock pool. Those in attendance as members of the board included M. A. McMillan, of Tees, Norman Tucker, of Vermilion, A. B. Claypool, of Swallow, J. P. Slattery, of Camrose, and S. S. Sears of Nanton.

Although it is made quite clear that the dairy products pool and livestock pool are to be organized quite separately, it is possible that a certain amount of preliminary organization work will be done by the executives of the two pools acting in conjunction, as in this way a greater uniformity of policy will be secured.

STUDY TUBERCULOSIS IN CATTLE

For the purpose of studying Bovine Tuberculosis and the transmission of the disease from animal to man and from animal to animal, the Provincial Minister of Health, Hon. Geo. Headley, has appointed the following committee: Dr. D. H. B. Duns, Dean of the Faculty of Medicine, Alberta University; Dr. J. J. Over, Professor of Pathology, Alberta University; Dr. Shaw, Serologist, Alberta University; Dr. H. Baker, Superintendent of the Central Veterinary Laboratory; Dr. P. Talbot, Chief Veterinarian, Province of Alberta; Dr. D. L. McCullough, Assistant Superintendent, Ponoka Mental Hospital; Dr. W. C. Laidlaw, Deputy Minister of Health for Alberta.

It has been found that some of the cattle in the dairy herd at the Provincial Mental Hospital at Ponoka are reactors to the tuberculin test. These have been isolated and it is the intention to study the secretions of these animals as to the infectiveness. It has been the practice and has been urged in the past that all such animals should be slaughtered. It was with the intention of stimulating further research along these lines that the minister has arranged for the formation of this committee.

HALIFAX TO DON GALA ATTIRE

One hundred and seventy-five years ago, Colonel the Honorable Edward Cornwallis, twin-brother of the first Archbishop of Canterbury, and uncle to Lord Cornwallis who surrendered to Washington at Yorktown, sailed His Majesty's ship "Sphinx," followed by her tall, wooden sisters, "Merry Jacks," "Fair Lady" and eleven more, into what is today, Halifax harbor. It was esteemed a great fleet for those long ago days and the voyage across the Atlantic took many weeks. Halifax is today a thriving modern city and a great port, but she forgets not the brave Englishmen who laid the firm foundations on which she is built.

The first fortnight of August will witness a carnival celebration in honor of Halifax's 175th birthday. A replica of the "Sphinx" will sail into the harbor and the landing of Cornwallis and his crew will be re-enacted at some spot along the shores of Point Pleasant Park. It is impossible to anchor where the original "Sphinx" did, as a mass of piers belonging to a great oil industry now covers that part of the harbor.

Clad in the picturesque costume of 1749, the impersonator of the founder of Halifax will step ashore

with his entourage and, joined by the waiting throng, proceed to some pretty glade in the Park or to the grounds of Dalhousie University. There a pantomime of laying the foundation of what proved to be a Citadel City and a fortress for Britain's establishment on this continent, will take place. Indians and French in old-time dress will be in evidence.

Many entertainments are planned for the carnival weeks; yacht races, regattas, horse races, athletic contests and military tattoos are some of them. The carnival will coincide with the visit of the British world-squadron of warships, and also the finish of an international yacht race with 17 entries from New Rochelle, N.Y., to Halifax. The Northwest Arm will provide boating and bathing and delightful nooks for picnics along its pretty shores. The unveiling of the "Cross of Sacrifice," a fine memorial in honor of the Nova Scotians who died at sea during the World War, will occur on the headlands of Point Pleasant Park.

Nova Scotia is a truly delightful summer vacation land and draws many tourists from far and near each year. Halifax's celebration will be an added attraction for 1924 visitors to that sea province.

LESLIEVILLE

The heavy rains have proved to be considerable impediment to those who commenced harvesting early in the season. Those who have resisted the temptation to begin will probably be more successful.

To those who are interested in gardening we recommend a visit to Mr. John Gore. Mr. Gore and Mrs. Gore deserve great credit, raising a garden of such splendor this year.

The recent pool activities in the province have been considered with approval in the district.

There are a number of farmers getting help through Mr. Smith of the S.B. Many are taking men with wives. We welcome these settlers and hope they may be with us permanently.

ANNOUNCEMENT

To Our Customers:—

It is with reluctance that we have to announce that after August 1st we shall be unable to continue the granting of credit, and shall have to place our business on a cash basis.

We always looked upon the granting of credit as one of the services we could render our friends, and the withdrawal of this service causes us some disappointment.

This change in policy has not been arrived at hastily. For weeks we have been thinking it over, but the time involved in running a credit business, in book-keeping and collecting, has left us no alternative than to sell for cash only.

We commend this change to your kind consideration and sincerely hope to be favored with your continued patronage under the new conditions, and shall use our utmost thought and energy to compensate our customers for the withdrawal of the credit system to which so many have been accustomed.

Yours sincerely,
 JARVIS-GOODEY HARNESS CO.
